

PERFORM CHARGING STAND, 5-BAY

Take charge of your headsets

Technology for life's new rhythm

**CHARGED AND READY**

Retail can be a busy environment. If you and your team rely on Perform 45 headsets to stay connected, make sure they're always ready when you need them. Perform Charging Stand is a docking station that can charge and update up to five headsets. It comes with magnetic USB adaptors which can be inserted into the charging ports, so it's easy to grab a headset, get connected, and start the shift.

**Your headsets will always be charged and ready when you are.**

**BLUE MEANS GO**

Backroom areas can get hectic, particularly at shift change time. If you're in a hurry to get out onto the retail floor, Perform Charging Stand makes it quick and easy to find a fully charged headset. The LED indicator on each Perform 45 shows the charging status of the headset so you'll know which one is ready: You may want to skip the red one which is charging, and grab the blue lit one at full power to take you through your shift.

**We've made it easy to grab and go.**

**BUILT TO LAST**

With a sturdy design, Perform Charging Stand is built for tough stockroom and retail environments and comes with a 2-year warranty.

**This one's a keeper.**

**TAKE FIVE**

Perform Charging Stand is space efficient, fitting perfectly on your standard 19-inch rack shelving. The stand streamlines your charging set-up and provides a base for Perform 45 headsets to be returned to and organized at the end of the day. Cut down on the clutter of multiple charging cables and leads whilst charging five headsets at once.

**Because some things are more efficient as a team.**

**STAY UP TO DATE**

To make sure your Perform 45 headsets are working as hard as your team, Perform Charging Stand provides a handy one-stop base for firmware updates for docked headsets. Connect the stand to a computer via USB to manage, update and customize five headsets using Jabra Direct\*, Jabra Xpress\* or SDK.

**That's what we call a multi-tasking time-saver.**

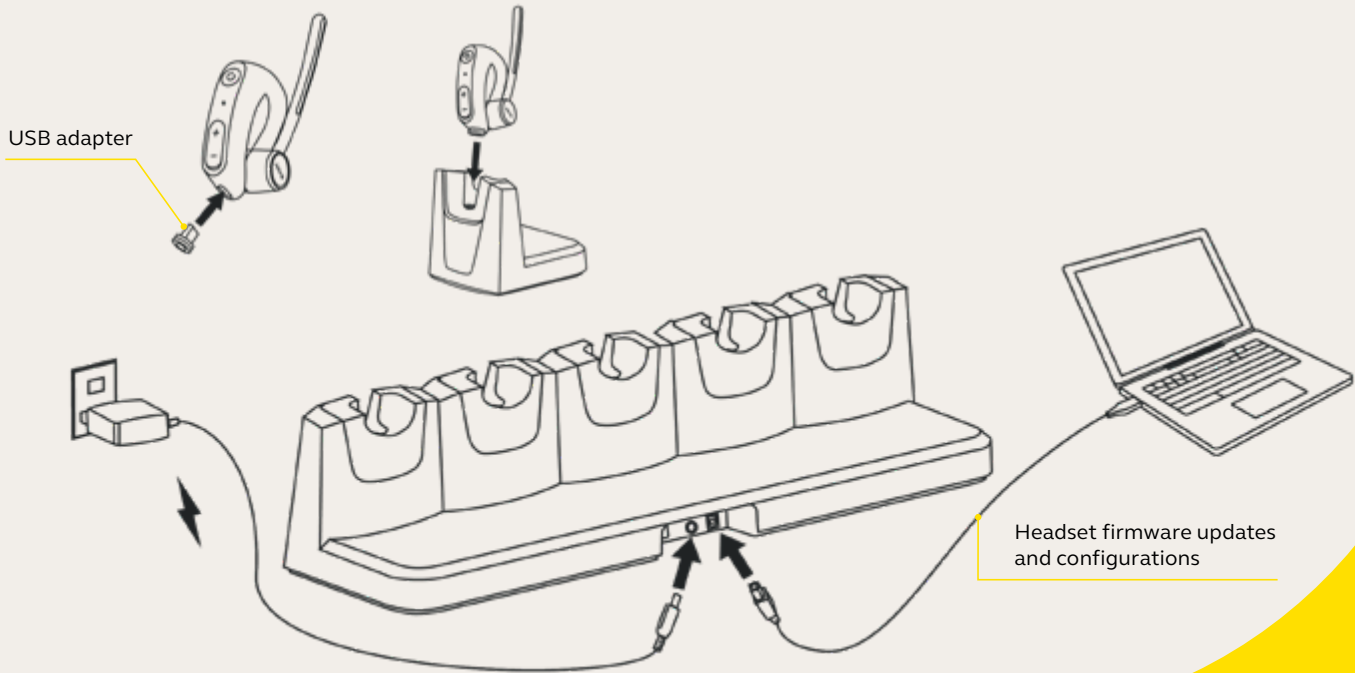

PERFORM CHARGING STAND, 5-BAY\*\*

\*Free download from [Jabra.com/direct](http://Jabra.com/direct) and [Jabra.com/xpress](http://Jabra.com/xpress)

\*\*Headsets sold separately

## HOW TO CHARGE

1. Plug the charging stand into a power outlet using the supplied power cable
2. Insert the suitable USB adapter into each headset and dock them into the cradles

## HOW TO UPDATE

1. Use the supplied USB cable to connect the charging stand to a computer
2. Open the Jabra Direct or Jabra Xpress on your computer and download any updates

### FEATURES
